

STATEMENT: COUNCILMEMBER ENGLANDER ON NEW GAS LEAK AT THE ALISO CANYON STORAGE FACILITY

"After enduring the largest gas leak in U.S. history, residents near Aliso Canyon are once again subject to an ongoing, unchecked leak with no accountability for those responsible. Despite all the safety measures put in place, it is clear that leaks like this are inevitable at large storage facilities like Aliso Canyon. That is why we need to both end our dependency on dangerous fuels and extend a moratorium on the use of the Aliso Canyon site. You simply cannot and should not co-locate such facilities near populated communities.

After nine days and one missed repair deadline since the latest leak began, the patience of residents is at an end. I once again call on state regulators to disallow the re-opening of the Aliso Canyon site."

- Councilmember Mitchell Englander
